

SIMPLY CLEVER

Škoda Octavia Scout

LOVE EVERYDAY CHALLENGES?

Do you enjoy overcoming obstacles? Do you always choose the more challenging paths? Then you need a car that can adapt to your active lifestyle: Škoda Octavia Scout. The Scout offers you a feeling of security and safety both on roads without a hard surface or on sharp bends and also for everyday travel in town traffic or on the motorway. At the same time it impresses you with its attractive design and comfortably furnished interior. So while each day may bring a new challenge, the Octavia Scout makes it a pleasure to meet them.

1. The robust spoiler on the front bumper gives the Scout a fierce look and also contributes to its aerodynamic properties.
2. The spoiler on the rear bumper represents dynamism, strength and reliability. The "cat's-eye" reflectors integrated into the spoiler increase the visibility and attractiveness of the car.

3. The 17" Proteus alloy wheels are original equipment intended for this model alone. The plastic strips on the sills and mudguards indicate that the Scout is also suitable for demanding conditions.
4. The polished double exhaust tailpipe of refined steel completes the elegant and sporty appearance of the car.

Please drive carefully and follow traffic rules.

1.

2.

3.

4.

LOVE SLIPPERY BENDS?

1.

2.

3.

1. The handle with the Scout emblem on the fascia can be used by the co-driver both on bends and when driving over uneven surfaces.
2. The decorative sill strips with the Scout emblem are an original accessory with aesthetic as well as practical functions.
3. The pedals with protectors of refined steel, an optional extra, are a further addition to the elegant sports style.

1.

2.

3.

4.

LOVE BUMPY ROADS?

1. A further exclusive piece of equipment in the Scout is the 4-spoke steering wheel with a combination of smooth and compressed leather in selected areas. It is pleasing both to the eyes and to the touch, in addition it is perfectly suited to the modern and well-designed instrument panel.

2. The gear stick knob is decorated with the 4x4 emblem. Its sleeve is made of leather.

3. The lighting for the door area integrated into the external mirrors is one of the many accessories that provide for your maximum comfort.

4. The fog lamps built into the spoiler of the front bumper clearly show that the Scout is also well equipped for driving in difficult light conditions. Xenon main headlamps are an optional extra.

LOVE GENEROUS SPACE?

1.

2.

3.

4.

5.

6.

1. The lengthwise roof railing with which the Scout is equipped also serves as a base for the attachment of the further racks needed for carrying skis, snowboards, bicycles or surfboards.
2. The plaque designating the model is one of many details typical of the Scout.

3. The rear seats can be folded down and divided (1/3 to 2/3). The centre seat has a backrest that can be pulled down to form armrests for the passengers on either side. By pulling down the backrest and the plastic cover even further, you create access to the luggage compartment.

4. The net system increases the practical aspect of the roomy luggage compartment in the Scout (580 litres). The nets can be placed according to need. Your luggage is thus safely secured, will not shift during travel and therefore has a reduced risk of damage.

5. Scout interior - fabric upholstery in the Onyx colour; standard equipment.
6. Alcantara interior - elegant covers in the combination Alcantara/leather/artificial leather in the Onyx colour; extra equipment.

COLOURS

The Octavia Scout is available in the following plain and metallic colours:

Candy White uni

Corrida Red uni

Dynamic Blue uni

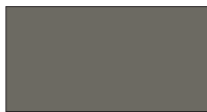

Diamond Silver metallic

Flamenco Red metallic

Storm Blue metallic

Cappuccino Beige metallic
